Humana's Member Summary is:

- A rolling 365-day, payer-based, point-of-care health record
- Demographic and medical data for Medicare Advantage patients
- A tool for identifying opportunities to improve clinical outcomes

How to get the Member Summary

You can access the Member Summary through Availity.com. Registration is required. In some cases, it may be possible to integrate the Member Summary into an electronic medical record system. Please ask your Medicare risk adjustment (MRA) market representative for more details.

Use it to improve care and talk to patients

You can use the Member Summary to identify care opportunities and help with patient discussions. The tool provides easy access to:

- Care alerts
- Healthcare Effectiveness Data and Information Set (HEDIS*) care opportunities (gaps in care)
- Patient prescriptions
- Past diagnoses

Information included

You'll find essential information in the following sections of the Member Summary:

- Patient demographic data
- Patient quality
- Patient admission/emergency room visits
- Clinical inference*
- Health condition history

- Prescription history
- Vaccinations and allergies
- Lab results
- Dental
- Vision

*Please note: The clinical inference section is not automatically available. Please ask your Medicare risk adjustment (MRA) market representative how to gain access.

Find out more

Please contact your market representative. You can also email questions to **HQRIProviderPrograms@humana.com**. The information contained in the Member Summary is not a medical report, nor is it intended to be a complete record of a patient's health information. Certain information may have been intentionally suppressed due to its sensitivity, i.e., psychiatric or substance abuse information.

Physicians must use their professional judgment to verify this information and should not exclusively rely on this information to treat their patients. Diagnosis information is powered by Humana's clinical rules engine.
