

Medicare Summary of Medical Preauthorization and Notification List Changes

Last updated: Mar. 26, 2024

This list contains a summary of changes made to the current copy of the Medicare Medical Preauthorization and Notification List. At Humana, we are dedicated to ensuring every business decision we make reflects our commitment to improving the health and well-being of our members. To that end, we continuously evaluate our clinical programs, current medical literature, legislation and coding practices to help our members achieve their best health.

Definitions:

Added: code now requires preauthorization

Removed: code no longer requires preauthorization

Deleted: code no longer recognized by either the American Medical Association the Centers for Medicare & Medicaid Services

A copy of the most recent Medicare Preauthorization and Notification List can be found on our webpage at [Humana.com/PAL](https://www.humana.com/PAL).

To prevent disruption of care, Humana does not require prior authorization for basic Medicare benefits during the first 90 days of a new member's enrollment for active courses of treatment that started prior to enrollment. Humana may review the services furnished during that active course of treatment against permissible coverage criteria when determining payment. To ensure appropriate claim payment please include the modifier based on Humana's Medicare Advantage Payment Policy (CP2023011), found on Humana.com or include medical records with evidence that the member is in an active course of treatment.
